COLUMBIA, ADAIR COUNTY, KENTUCKY, WEDNESDAY APRIL 24, 1912.

NUMBER 25

## Columbia High School Takes Two Games.

The Graded School got revenge from Glensfork Saturday, April 13, for the defeat last year. At the former's grounds the country boys were outclassed to the tune of 16 to 8. Possibly they were so jubilant over their previous victory that they had failed to practice since. But it occurs to the Graders that they couldn't hit Hancock opportunely.

### SCORE.

Innings	1	2	3	4	5	6	7	8	9	R	H	E
C H S	4	3	1	2	0	1	2	3	X	16	14	6
Glensfork	2	8	0	0	1	0	1	1	0	8	7	5

Batteries: Glensfork, Harvey, Sanders, W. Holladay & Denson. C. H. S. Hancock and Rosenfield. Home Runs—Hancock and Rosenfield. Three base hits L. Lewis, R. Holladay & T. Holladay. Two base hits L. Lewis, Eubank, Denson, T. Holladay. Struck out by Hancock, 3; by Harvey and Sanders, 7. Base on Balls off Hancock, 2; off Harvey, etc., 8. Umpire—Winfrey. Attendance 100.

Wednesday afternoon, April 17, Lindsey-Wilson and Columbia High School played at the latter's grounds. The poor support given Holt, and the ability of Hancock's keeping Lindsey's hits scattered, caused the Graders to win in a walk.

### Nat Brown.

This fine combined saddle and harness stallion will make the present season at my stable 1 1/2 miles south of Milltown at \$10 to insure a living colt. He is a grand son of old Nat Brown and out of an English draft mare. He is unexcelled in disposition, being, so kind and gentle that any lady or child can ride or drive him with perfect safety. If you want to breed to the best don't fail to see this horse.

At the same place I will stand Jack Chinn, one of the best known Jacks in Adair county. Fee \$6.00  
J. C. Browning.

22-6t

Born, to the wife of C. M. Barnett, Evansville, Ind., Friday, the 19th, a lifeless daughter. The little corpse was brought to Columbia by the father and interred in the city cemetery last Saturday afternoon at 5 o'clock. Quite a number of sympathizing friends went to the cemetery where Rev. J. W. Weldon made a religious talk and offered prayer. When friends withdrew the little mound was covered with flowers.

John B. Burress, Frank Burress and Ruel Burton, who are in jail serving out fines, came very near making their escape last Friday morning. They had been taken from their cells, and were in the corridor. With billets of wood they knocked a hole in the outside wall. A passerby heard the brick falling, gave the alarm, and the escape was prevented.

Dr. Alper, optician, who was here for some time last winter with S. N. Hancock, will be at J. N. Page's Drug Store next Saturday. Anybody in need of glasses will do well to call on him.

Field Day for the Lindsey-Wilson has been fixed for Friday the 10th of May. If the day should be disagreeable on account of rain, the following day, Saturday, will be used.

Considerable frost here last Friday morning.

## Important Notice.

April, 18th, 1912  
To the Citizens of the Town of Columbia: The time has come for every citizen to see after his premises. The health of the people is the greatest blessing to every community. The health of the people is promoted by looking after the little things. A clean town is always a healthy town. In a perfectly clean town, there are no flies or mosquitoes. If there are no flies or mosquitoes, there is no sickness of the kind spread by these pests. Malarial troubles are spread altogether by mosquitoes. Typhoid fever and consumption are spread largely by the house fly. If the people will begin in time, begin now, the house fly can be prevented from breeding.

Screening the houses is the beginning of safety. Keep the manure from accumulating in the stables. If it is hauled out and scattered over the ground every week, there is no danger. Do this, or sprinkle a little coal oil over the heaps every day. In this way you will stop the flies from breeding, and save yourselves and your horses from a great deal of unnecessary annoyance. Keep the flies out of your privies, either by screening the vaults, or by covering the contents with lime, or ashes or fresh earth every day.

These things are a little troublesome, but it pays in the long run. Then, be sure and keep your rain barrels covered so that mosquitoes cannot lay their eggs in water. The eggs of mosquitoes when hatched are wiggle-tails, and wiggle-tails when developed are mosquitoes. You should not only keep your rain barrels covered, but have no tin cans or other vessels lying around catching water, and giving the mosquitoes a place for laying their eggs. The old fashioned "shak in ager" has been nearly entirely eliminated.

You see none of it these days. This is the result of the war that has been waged against the mosquitoes. By a conference with the Board of health, and the Board of town trustees, Saturday the 27, day of April has been set apart as a general cleaning up day, when every citizen is expected and directed to clean his premises. Let the filth be put into barrels or boxes, and placed on the streets where the wagons which will be furnished by the town can get them and haul them away. Every old lumber pile in a state of decay must be removed. No paper hereafter must be thrown into the streets or on the public square.

U. L. Taylor, Health Officer of Adair county, W. R. Myres, Mayor of the town.

### Have you tried Wilson's Ice Cream.

## High School Commencement Exercises.

The Baccalaureate sermon will be preached by Rev. D. H. Howerton, at the Baptist church Sunday morning, May 12. The graduating exercises will be held at the Presbyterian church, Thursday morning, May 16. Rev. J. W. Weldon will deliver the address to the graduates.

### Golden Seal.

If you have any Golden Seal, (Yellow Root) for sale, or expect to collect the wild roots during the season, write me, as I want several hundred thousand for planting purposes. Address J. W. Sears, P. O. Box 563, Somerset, Ky. 21-5t

### Why He Was Lgtc.

"What made you so late?"  
"I met Smithson."  
"Well, that is no reason why you should be an hour late getting home to supper."  
"I know, but I asked him how he was feeling, and he insisted on telling me about his stomach trouble."  
"Did you tell him to take Chamberlain's Tablets?"  
"Sure, that is what he needs." Sold by Paul Drug Co.

Next fall there will be a tree planting, for shade, in the Capitol grounds, Frankfort. Every citizen in the State will send a tree of its own growth. Messrs. J. N. Blair, Walker Bryant and A. D. Patteson have been named as the committee of Adair county to select a tree.

Now is the time to have your Rubber tires put on. I have fresh rubber, made this year, prices lower than ever and am prepared to paint Bugzies, also call and get prices and see my work. 24-8t S. F. Eubank.

You will find a full line of W. T. Rawleigh's remedies, extracts and toilet articles, at the store of Nath Kelsey, near the roller mill. 22-4t

Born, to the wife of J. C. Absher, a daughter, April 18, 1912.

## A New Railway Project.

Tennessee capitalists, mainly residents of Gallatin and neighboring towns, have secured a charter for an electric railway from Gallatin to Stanford or Somerset, Ky.

The projectors are said to have been at work on the enterprise for several months and to have as many as four routes under consideration for the road, which is designated in its charter as the Cumberland Valley & Interstate Railway. In the final selection they will be guided largely by the amount of popular interest that is manifested in the territory affected.

The road is projected through a section of Kentucky that is greatly in need of better transportation facilities. In the area between Gallatin and Stanford there is a block of eight Kentucky counties, all of which are without railroads. These are Monroe, Metcalfe, Cumberland, Wayne, Clinton, Adair, Russell and Casey. Any road built from Gallatin to Somerset or Stanford would be likely to penetrate at least two, and probably more, of these counties. They embrace a country that is rich in diversified resources and that presents an inviting field for the investment of capital. In no other section of the State is there so large a territory inconveniently situated with respect to railroad facilities. There have been numerous efforts heretofore to induce the building of railroads into this region, but none of the ambitious projects set on foot has made material progress.

It is scarcely possible that the development of this inviting area can be delayed many years longer. The movement in Tennessee is inspired by men who know the possibilities of the country through which it is proposed to build the road and it is to be hoped their enterprise will be more fortunate than those which have gone before.—Courier-Journal.

There may be something in this project, hence it would not be out of place for the people of Adair county to get busy.

## For Sale—A Good Location; Fine Business.

Desiring to retire from the mercantile business, I offer to sell my storehouse, stock of goods and dwelling, or store and goods alone; located at Coburg, Ky., at prices and terms that will insure satisfaction to the purchaser.

This is one of the best locations in Adair county for a general Merchandising and the live, hustling merchant will be well rewarded for his energies, and have the pleasure of dealing with a large and appreciative patronage. If interested in a good business and location of this kind call on or address, J. G. Dudgeon, Coburg, Ky.

### Wanted.

A man to work for the Singer Sewing Machine Co., in Adair county. Will pay a salary each week and a commission. Address G. R. Holt, Mgr., Campbellsville, Ky.

### His Horse Insured.

Dr. T. D. Finck, of Louisville, whose fine saddle stallion, Montgomery Squirrel 3191, was killed in his stall a few days ago, had the good luck to have him insured in the Indiana and Ohio Live Stock Insurance Co., of Crawfordsville, Ind. The company has agreed to pay \$1,500 for the loss.—Farmer's Home Journal.

Tim Cravens is the local agent for the above named company.

## 50 Pair Ladies Tan Oxfords Sizes 2 to 3 1/2 to close out \$1.00 per pair at Sinclair's.

Mr. Voluntine Bryant, one of Adair county's best citizens, met with a frightful accident one day last week. He was putting a new roof on his barn, slipped and fell to the ground. He was considerably bruised, but fortunately not seriously hurt.

"My little son had a very severe cold. I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished he was as well as ever," writes Mrs. H. Silks, Dowling Street, Sydney, Australia. This remedy is for sale by Paul Drug Co.

All arrangements have been made for the Smith-Conover wedding which will take place at the home this (Wednesday) morning at 9:30 o'clock. The intended groom arrived from Monticello last Friday.

If you want pure ice cream go to Wilsons.

## Base Ball.

The Middleburg base-ball team which was scheduled to play the L. W. T. S. team two games arrived in Columbia late Thursday night, with the exception of two men whose places were filled by Hancock and Lewis, two of Columbia's most promising young players. The first game was called Friday afternoon with Jones and Wheat at the battery for the visitors, and Holt and Catron for Lindsey. Both teams were confident of victory, but when the last man was out, the score stood four to one in favor of the visitors. Score:

Innings	1	2	3	4	5	6	7	8	9	R	H	E
Middleburg	0	1	0	0	1	0	2	0	0	4	8	6
Lindsey	0	0	0	0	1	0	0	0	1	8	4	4

Two base hits, Catron, three base hit Sharp. Struck out by Jones 9, by Holt 8. Time of game, one hour and fifteen minutes. Umpire, Dr. Hindman.

The second game was called Saturday at two p. m. Middleburg used the same battery while Lindsey selected "Big" Allen to do the twirling and Catron again to catch. The game was close and exciting from start to finish, and by the score of seven to six Lindsey had won her first game of the season. The Middleburg team was composed of a nice crowd of boys who play ball with a vim. Score:

Innings	1	2	3	4	5	6	7	8	9	R	H	E
Lindsey	2	0	0	0	0	1	4	2	7	9	6	6
Middleburg	0	3	0	0	0	0	3	0	6	9	4	4

Two base hits, Allen, P. Dunbar and Swinney. Three base hits, Godby. Struck out by Jones 4, by Allen 5. Time of game one hour and twenty minutes. Umpire, Dr. Hindman.

Don't fail to see Dr. Alper next Saturday if you need glasses.

### Failed to Contract.

The Fiscal Court met last Thursday to receive bids for building the bridge across Russell's creek at the Birk ford. Mr. Spain was here, representing the Champion Bridge Company, and he submitted a bid of \$2,200. Another gentleman, who represented some other company was here, but he did not submit a proposition. A proposition, by letter, was received from another company, the bid being less than two thousand. The Court retired and consulted a few minutes, after which a motion prevailed rejecting all bids for the present. We take it that the County Judge and County Attorney will make thorough investigation, and at an early day the contract will be let.

## Next Sabbath at Presbyterian Church.

The pastor will preach from the theme, "They That Go Down to the Sea in Ships—or A Disaster at Sea" at the morning hour. In the evening "Familiar Talks on Genesis" will be continued. The stereopticon views will deal with Egypt and the Canaan journey, also the beautiful song "Where is My Wandering Boy To-night." Every body welcome at these services.

### The First Rattlesnake.

Robert Wheat, son of Mr. Cyrus Wheat, who lives in the Fairplay country, killed a rattlesnake last Wednesday. It had six rattles and a button. They boy was out hunting mushrooms, and while standing near some rotten logs, he felt something biting the toe of his shoe. Looking down he discovered the snake which he stamped to death.

Rev. A. R. Kasey, Hopkinsville, a former pastor of the M. E. Church here, met with the Board of Education, Louisville Conference, in this place, last week. Wednesday night he delivered a very interesting discourse to a large audience at the Methodist church. Rev. Kasey is quite a favorite here, and all his old friends made it a point to shake his hand during the three days he remained in Columbia.

### Who Preaches Next Sunday.

Columbia, Rev. J. R. Crawford.  
Columbia, Eld. Z. T. Williams.

Judas this recently imported Percheron stallion will make the season at W. G. McKinley's barn. He weighs 16 hundred pounds and is a perfect horse. Fee, \$15 to insure. Go and see him. 24-3t

Mr. Wyatt Smith, who lives in the Tutt addition, has fourteen peach trees that are full of young, healthy peaches. He will also have a fine supply of cherries, a number of trees hanging full.

## IN THE DISTRICT COURT OF THE UNITED STATES. For The Western District of Kentucky.

### In Bankruptcy.

In the matter of Edward L. Sinclair a Bankrupt. On this 19th day of April A. D., 1912, on considering the petition of the aforesaid bankrupt for discharge filed on the 19th day of April A. D. 1912 it is ordered by the court that a hearing be had upon the same on the 8th day of June A. D. 1912, before said court at Louisville in said district, at 10 o'clock in the forenoon, or as near there to as practicable, and that notice thereof be published one time in the Adair County News, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at said time and place and show cause, if any they have any, why the prayer of said petitioner should not be granted.

WITNESS the Honorable Walter Evans, Judge of said Court, and the seal thereof, at Bowling Green in said district, on the 19th day of April A. D., 1912.

### Wedding at Owensby.

On Wednesday April 17, 1911, at the home of Mr. and Mr. Julian Long, Mr. Owen McKinley and Miss Stella, their eldest daughter, were happily married at 2:30 p. m. in the presence of relatives and friends, by Rev. D. T. Tarter, in his most solemn and impressive manner. The bride was handsomely gowned in white silk and wore a bride's veil with orange blossoms, and was indeed very beautiful. Miss Pearl Murray, of Sewellton, bridesmaid, and cousin of the bride, was gowned in an up-to-date manner forming a most beautiful and charming personality, while the groom and best man, Mr. Ivie Woodridge, were gayly attired to suit the events of the occasion.

Miss Long is a charming young lady and having a wide circle of friends, was quite popular among the young people of this community. She will be greatly missed. The groom is a sober young man of sterling character and worth, and a prosperous farmer.

Immediately after the ceremony Mr. and Mrs. McKinley, accompanied by Mr. Woodridge and Miss Murray, left for Russell Springs, the home of the groom's parents, where a repast was served and to receive parental blessing. May their lives be long and happily spent together, and no difficulties arise to mar their happiness or blight their future, is the wish of the writer. X

### At the Parson's.

Last Thursday afternoon at 4 o'clock, Mr. Samuel Feese and Miss Grace Conover drove into Columbia and to the residence of Eld. Z. T. Williams, where they were joined in the rites of matrimony.

The bride is a daughter of Mr. Sam Conover, and is a very deserving young lady, one who had many friends among the young people of the neighborhood where she was reared.

The groom is a son of Mr. James Feese, who lives near Columbia, and is a very industrious young man. For several years he has been employed by the Grinstead Poultry Company.

For the present, the couple will reside with the father of the bride.

If you suffer with headache consult Dr. Alper about your eyes at J. N. Page's Drug store next Saturday.

Quite a number attended the funeral of little Dora Payne, in the cemetery here, last Wednesday afternoon. The end came at Burkesville where her father resides. Her mother, who died about eight years ago, was laid to rest here. The deceased was about eleven years old, and had been delicate all her life. She was a niece of Common wealth Attorney A. A. Huddleston, who with many other Cumberland county friends, came up with the remains.

Mr. Emmet R. Chandler, who was a popular gentleman of Campbellsville, died in that city last Tuesday night, after a few days illness. He was 32 years old and leaves a wife and three children. His mother was Miss Annie Montgomery before her marriage, and was born, reared and married in Columbia. The deceased was connected to many prominent people of Kentucky.

Mr. Scott Montgomery has left at this office an Indian tomahawk which was found on the David Conover farm. It was evidently plowed up, and from its appearance it had been in the ground for many years, probably more than a hundred.

## Side Walks.

Is the city council of Columbia not going to extend the concrete sidewalks within the town limits? The citizens residing on the turnpike beyond the bridge which spans Russell's creek, are of the opinion that such needed and important improvements should not be discontinued so long as they have not fared like the citizens living on the three other main thoroughfares of the town. On Jamestown street, Greensburg street and Burksville street, concrete sidewalks have been built to the town limits, but on Campbellsville street the citizens have not been so fortunate. After a long time, and with much imploring and begging, the late board of Trustees did finally pass an ordinance requiring a side walk built by the property owners as far out as the Russell creek bridge, which has been complied with, and for which we people on that end are thankful, but are those citizens owning property beyond the bridge on the "exempt" list? If they are not, why should they not be required to build sidewalks just like the ones living on this side of the bridge toward town? We invite the members of the new council to walk out that way some time when the roads are muddy and see what we have to contend with in getting to our homes, and if after investigation they feel we should not have any sidewalks, very well, but if they think we should have them, an extension to the town limits is all we ask. There is another sidewalk that ought to be built in the town. It would be a credit to Columbia, as well as to indicate the progressiveness and public spirit of the city council. That walk should begin at the intersection of the Campbellsville turnpike and the street leading to the Lindsey-Wilson school, and extend up to the school building. We ask a consideration on these needed improvements.

Fred McLean.

## Death of An Old Citizen.

Mr. Joseph P. Willis, who was born and reared in the Zion neighborhood, died last Saturday afternoon about 6 o'clock. He was one of the best known men in that section of the county. He was seventy years old a short time before his death. He had been a consistent member of the Baptist church for many years, the funeral services being conducted by his pastor, Rev. D. H. Howerton, in the presence of many relatives and friends.

The deceased was a son of Judge Ned Willis, who died many years ago, and who was a prominent man of Adair county. He leaves a wife and one daughter two brother, Mr. H. P. Willis and Mr. A. G. Willis and three sisters, Mesdames Caroline Jeffries and Victoria Garnett and Miss Harriet Willis.

Every body is in sympathy with the sorrowing members of the family. The interment was at the Zion church yard.

### Married Sunday.

Last Sunday at the residence of the bride's parents, Mr. and Mrs. J. E. Burton, Mr. J. L. Feese, son of Mr. and Mrs. G. R. Feese, was married to Miss Berch Burton, a great many relatives and friends witnessing the ceremony which was pronounced by a local minister. The couple will reside on Green river.

Mr. Jo M. Rosenfield, who signed with the Lexington team, Blue Grass League, several weeks ago, was notified last Wednesday to report at once at Lexington for duty. He took the first hack. Mr. Rosenfield is to catch, and his friends here believe that he will make good.

### To The Farmers of Russell County.

The boys' Corn Club will be organized the 4th of May. All boys desiring to enter the contest will be present on that day at 1 p. m., at the court-house to enroll and receive their seed corn. All the farmers should set aside one acre for the boy, bring him to town to help organize, and give him a chance to grow corn. The boys of to-day must soon feed the world. Talk up the Corn Club, and let us all meet back at 1 p. m. of May the 4th.

## Fifteen Hundred Lives Lost.

The greatest ocean disaster in the history of the world occurred on Saturday the 14th inst. A dispatch from New York says:

New York, April 15.—At the bottom of the sea, in water two miles deep, to-day lies the wreck of the largest steamship ever built, and she took with her more than fifteen hundred souls.

The ship was the Titanic, the largest steamer afloat, on her maiden voyage across the Atlantic. Off the coast of New Foundland, in the darkness of night, the big liner struck an iceberg. The boat sank in a few hours.

How many lives were lost is not known. The sister ship of the Titanic, the Olympic, which was near the scene of the accident, sent a wireless message to-night stating:

"Loss likely to total eighteen hundred souls."

This seems to be the most accurate information that was obtainable to-night regarding the extent of the greatest disaster in the history of the sea. Earlier reports had indicated that the loss of life would be fifteen hundred.

## FIRST NEWS OF DISASTER.

The first news of the accident was received by the wireless operator at Cape Race. It said:

"Have struck an iceberg. We are badly damaged. Rush aid."

Within half an hour the Virginian of the Allan line had been communicated with and her captain was headed directly to the scene. Shortly afterward the Virginian sent the following to her local agents:

"Titanic says she is badly damaged as result of striking an iceberg. She demands immediate assistance and we are rushing to her help."

From time to time other wireless advices were received. In each it was stated that the Titanic was still in touch, and it was not until 12:27 that the Virginian reported she had lost the Titanic.

The weather this morning was clear and calm, the pumps of the Titanic were being worked to their utmost, it was stated, and while the forward holes were full of water the water tight compartments were holding.

The great steel plow of the Titanic crumbled before the impact with the enormous iceberg. As the smash came, however, the water-tight compartment doors closed automatically. Immediately the wireless appeals for aid were sent out and the response was immediate.

## AID COMES LATE.

Although several ships caught the wireless message asking for immediate assistance, only the Carpathia reached the scene in time to be of any material assistance. The parisian and the Virginian both arrived after it was too late to do any thing. The Carpathia, the first ship to reach the scene, arriving eight hours after the Titanic had gone to the bottom. In the lifeboats of the Titanic were the women and children who were on board of the big liner. The Carpathia picked up these survivors and it is believed that they are the only ones saved out of the 2,170 persons on board.

## ARCHIE BUTT ON BOARD.

Major Archie Butt, the President's military aide, was one of the passengers on board the big

liner. There were also many wealthy persons, including John Jacob Astor and his recent bride who were returning from a honeymoon trip.

The survivors on board the Carpathia are bound for New York. Their number is not known, but is said to be 675. If that many are on board the list of dead will be decreased.

## Milltown Ga.

## Editor News:

Please find space for another letter from a happy Kentucky boy. It rains here almost all the time, and it is raining now. The constant rains have caused the farmers here to be late with their corn and cotton crops.

I have only eight more weeks of school and I will then come back to the best place on earth, Ky., (besides Ga.)

Politics is the talk of every day life here in the "Sunny South." The Georgia people say that O. W. Underwood must have the nomination for President and also the office. When a Georgia man read the article in the News about Underwood, he said Ky., was in the right and that he knew Underwood was.

I want W. J. Bryant to make one more race as that will make his fourth race and defeat, if he will only make one more.

You can't imagine how hospitable these Ga., folks are. They seem just like home folks to me, and they are homefolks as long as I stay among them.

I want to ask again, what is wrong with the Glensfork correspondent? They surely are all dead in that section of Ky., for I never get any news from them through your good paper.

"Oh you ball players!" what are you doing? Are you winning any games or are you losing all? I am playing with the Green Bay League at present. We have not lost a game.

There is one thing here some of us have not seen, the turpentine still. There is about a half dozen of them here and it is a grand scene to view this work.

There is two new R. R. being constructed to Milltown (only 3 miles from here and it will sure help this vicinity out, in various respects.

There is many grand sceneries here. One of them is the "Banks Mill Pond." It contains over 3000 acres of water. This is one of the best of places to go rowing and fishing at all.

I will bring my lengthy letter to a close, wishing all my friends success in all future undertakings. A Kentucky Cracker.

## Preserving Soil Moisture.

One object of tiling is to preserve the moisture in the soil. The spreading of manure during the winter round the stems of standard fruit trees, and such bushes as gooseberries and currants, tends to keep the surface soil moist. The roots of such plants are near the surface, and by slightly scraping beneath with a spade the numerous tender root hairs are soon exposed. these are at work feeding the stems; they are protected from frost by the straw of the manure.

In summer time we hoe the weeds, but it is an excellent plan

to keep the hoe going before the weeds are visible. The latter are robbers of nutriment, and a little stir will prevent their getting a firm hold. But the hoe goes one step further, it breaks up the tiny pores in the soil through which the moisture naturally comes to the surface by capillary attraction, and thus evaporation is arrested—a most important thing when rain is badly wanted.

After hoeing in this manner, and for this object is plainly seen that plants derive much benefit, as much and even more than from those of the summer showers, which leaves little traces behind of their visit.

## Woman to Vote in Kentucky.

For the first time in Kentucky will be witnessed the spectacle of women voting in a regular county election in 1913. If the general adapted construction placed upon the recently enacted School Law be correct, a woman who can read and who possess the necessary qualifications as required of male voters may exercise the right of suffrage in the race for School Supt. Separate ballots will be provided bearing the names of the various candidates for this office but the same officers will conduct the election for this office as preside at the general election. The ladies will be permitted to use the same booths as the men when casting their ballots. In the future the women will become a factor in politics in Kentucky, at least in so far as one office is concerned and it is thought that the change will have a tendency to divorce the office of School Supt. from politics.—X.

An alleged Washington scientist asserts that he can teach hens to talk. But he does not show that talking will increase the egg product, which at this season of the year is the pivot issue of the hen industry.

## Farm Notes.

Plow the garden deeply.

Teach the calf to eat grain.

Watch out for rotting apples and potatoes.

Hogs can stand cold, dry weather without injury.

Do not tie your cattle up by the neck to feed them.

No ewe should be bred until she has reached maturity.

A poorly nourished, stunted 2-year-old filly should not be bred.

There are many reasons why farmers should keep more sheep.

Each season a grass-plot should be held in reserve for dairy cows.

In some sections farmers are recommending sowing alsike with timothy.

On every farm poultry should not only have a place, but a prominent place.

Replowing fall plowed land again in the spring seems useless expense and bother.

It is a common but erroneous opinion that beets are especially hard on the land.

Let the colt have shelter from storm, but let him have access to pasture also.

It is as an egg producer that the Indian Runner duck has gained the most fame.

When rape is pastured down, it will often spring up again after being given a rest.

An economical use of roughage about the farm is greatly in favor of winter dairying.

Feeding all the cows in the same way is treating them unfairly and cheating yourself.

The best time to dehorn an animal is when it is only a few days old, by using caustic potash.

It is well worth while to exert every energy possible to keep your present supply of live stock.

In breaking the colt, remember that it is an easy matter to overload and ruin him by causing him to balk.

One of the secrets in raising any kind of live stock is to keep the young animal growing from the start.

The time to change the calf from whole milk to skim milk will depend largely upon the development of the calf.

You may feed all the food your hens can possibly use, but if you are short of grit, the results will not be satisfactory.

Bacteria do not thrive in the cold but in heat only. If you keep your milk 40 degrees the bacteria will have small chance.

In case some cockerels need to be eaten or sold on a fancy market, it pays to put them in a crate and fatten them two weeks.

## Random Thoughts.

Happiness is a perfume that one cannot shed over another without a few drops falling on one's self.

When one is inclined to worry, the remark of an old lady should be recalled: "Yes, dearies; I've had an awful heap of trouble in my time, and most of it never happened."

A Connecticut man who has been married 77 years has compiled ten commandments for married folks. Having been at the receiving end of the commandment game for 77 years he is entitled to do a little commanding on his own hook.

## Great Famine In China.

Three millions of people in Central China are on the verge of starvation. Last summer the worst floods in forty years destroyed the crops in an area of 50,000 square miles. Many have already died of hunger, and unless prompt relief is given, multitudes of men, women and children must perish.

During the last few weeks the political and military news from China has absorbed the attention and interest of the world to the exclusion of the needs of the hungry millions. No harvest can be expected until May. Until then the famine will be growing daily more acute. The people to be relieved are chiefly

hard working and honest farmers.

There is a strong famine relief committee in Shanghai, composed of both foreigners and Chinese of all faiths. Bishop Graves of the Episcopal church is chairman; Dr. Wu Ting Fang, former Minister to the United States, is vice-chairman; E. C. Lobenstine of the Presbyterian church, secretary, and H. C. Gulland, manager International Banking Corporation, treasurer. The committee will employ as many as possible of these able to labor in building dikes, and in such other works as will help to prevent the recurrence of flood and famine. This work is in line with the recommendation of C. D. Jameson, an engineer sent to China by the American Red Cross. All labor is to be paid for in grain, and not in money.

As president of the American Red Cross, President Taft has issued a proclamation asking the people of the United States to help the people of China. He has joined with the other officers of the Red Cross in requesting this citizens' committee in making known the facts. The Chinese government and people are doing what they can to relieve the situation, but they can meet only a fraction of the need.

This is one of the greatest famines of modern times. Six hundred thousand families are without food or means of support. Fifteen dollars will save a whole family from starvation. Fifteen hundred dollars will save one hundred families. Fifteen thousand dollars will provide for one thousand families. Hundreds of thousands of lives can thus be saved if sufficiently prompt and generous contributions are made.

Remittances should be sent to Jacob H. Schiff, Treasurer, 1 Madison Avenue, New York. All funds received will be forwarded by cable, without any deduction whatever for expenses, to the Famine Relief Committee in China, through the Department of State at Washington.

In the time of national crisis and reconstruction in China, and in her hour of dire physical distress and suffering, may America prove a friend indeed, because a friend in time of need.

## The "Jelly Wobble."

The following telegram from Washington, printed in a New York paper, is either a gross libel or an indication of decadence in the Washington Smart Set:

"The Dancing Fifty of the Play-house Club, which includes Mrs. Alice Longworth, Postmaster-General Hitchcock, Preston Gibson, Margaret Draper, Miss Helen Taft, Mr. and Mrs. Joseph Leiter and the Misses Meyers are eagerly practicing the new dance, 'The Jelly Wobble.' It is Oriental in effect and is rapidly displacing the 'Turkey Trot' in society's esteem.

"Only one or two of the younger set frown on these dances. Chief among the objectors is Miss Helen Taft, who while an enthusiastic member of the Dancing Fifty, refuses to turkey trot, devil dance or jelly wobble. Many matrons also disapprove heartily of these new dances."

A description of the dance is given, showing it to be the "grizzly bear" in a state of higher—or perhaps "lower" is the word—evolution. It is announced that Preston Gibson, formerly of Lexington, is the organizer of the "dancing Fifty" and a leading "jelly wobbler."

Social leaders in Washington must have reached a low mental and moral ebb if they have nothing better to do than originate more disgusting dances than those the police forbid in the public dance halls.

## Care of Lamps.

Poor lights are often caused by the condition of lamps and wicks. The oils which accumulate in the lamp should be thrown out every month and the lamp thoroughly cleaned.

The lamp should be filled and the charred portion of the wick removed each time before lighting.

Use a wick of good quality. The wick is the vital part of the lamp.

New wicks should be supplied every month or two. They should be dried before the fire and put into the oil while warm. Used wicks should be dried every two weeks. Clogged wicks make poor light. Don't economize on wicks. They are cheaper than oil or eyesight.

A smoke flame may be due to a cheap burner or an unsuitable chimney. Burner and chimney should be kept clean.

If these directions are followed there will be less complaint of oil and lamps.

A few sweet apples or lumps of sugar is likely to prove much more effective than a whip in securing obedience from an intelligent, spirited highly bred colt, or even a mature animal of the horse kind.

Calves should not be turned out to pasture unless they have had a little green feed before, as it is liable to cause scours. Give all the fresh, clean water the calf will drink.

## REX PAULL

This Celebrated young Stallion will make the present season (1912) at our barn at Roley, Ky., for the sum of \$12.00 for a mare colt, or \$10.00 for a horse colt. Rex Paull is registered 2928 in the American Saddle Horse Breeding Association.

DESCRIPTION: Rex Paull is 16 hands high, a dark bay, with fine mane and tail. He is 5 years old and weighs 1195 pounds.

Rex Paull has defeated more Stallions in the Fairs, as a show horse, than any other horse in this part of the State.

His colts won the blues over the colts of four counties. His colts eleven months old, 700 pounds, and is 14½ hands high.

We insure all colts to get up and suck. Lean retained on all colts. All care taken to prevent accidents, but not responsible should any occur.

## ROYAL PEACOCK

At the same time and place we will offer the service of Royal Peacock, who is a combined saddle and harness horse, nine years old, a model in form and action. He is the sire of some of the best colts in Adair county. He will be permitted to serve mares for \$7.00. This is a rare opportunity to breed to this horse, as you will probably never have another chance to breed for this small fee. He was sired by Old Peacock, owned by Thompson Bros., Lebanon, Tenn. His first dam was Capt. Harper's blooded mare, by Young Clipper. He will stand on the insure plan, the money due when the colt is foaled or mare parted with, or traded or sold.

## BEAUCHAMP

Will make the present season, (1912) at our stable at Roley at \$8.00 to insure a living colt all right. BEAUCHAMP is 8 years old, 15½ hands high, black with mealy points, heavy bone and muscle. Beauchamp has proven himself to be one of the best mule Jacks in this part of the State, imparting size and style to his gets. His mules were among the best in the county last year, and brought top prices.

Beauchamp was sired by Ben McFarland's fine Jack and his dam was a well bred Jennet by John McFarland's 16 hand Jack.

Money due when colt is foaled, mare bred to other stock, traded or removed from neighborhood. All care taken to prevent accidents, but not responsible should any occur.

**JEFF:** This fine Jack will make the present season at the same place, at \$6.00 for a mare colt or \$5.00 for a horse colt. Jeff is a coal black with white points, and heavy bone and muscle. This Jack has proven himself to be one of the finest breeders in the country. Stock men will do well to see this line of stock before breeding.

Stock will have our personal attention. We will pasture a limited number of mares at \$2. per month, or a reasonable price for grain.

WOLFORD BROS.

## Home Coming for Ex-Kentuckians

Special to the News:

Louisville, Ky., April 5, the catchy Slogan, "Meet us in our old Kentucky home, adopted by the Disciples of Christ for their International Convention in Louisville, Oct., 15-22, has started a movement among ex-Kentuckians of the denomination for a big home-coming in connection with the event.

Kentucky is known as the "Pioneer Battle Ground" of the Disciples for the reason that many of the famous debates between their early leaders and those of other denominations were held in its principal cities and towns.

Aside from nearly 150,000 members of the denomination in the State now, it is estimated that more than that number of

native converts have migrated to other States; mostly to Missouri, where the Disciples are 175,000 strong; Indiana with 154,000; Illinois 125,000; Ohio 100,000; Tennessee 80,000, to say nothing of other nearby States and in the far West.

With this home-coming feature, and the fact that Louisville is in the geographical center of more than one million of their membership, the Disciples have planned for the largest gathering at any Convention in their history.

The local Committee has already engaged the big Louisville Armory, with its seating capacity of 20,000 and all side-rooms and convention halls, for the event.

George A. Jones, Secretary of the Committee, states, however, that the home-coming feature

will not be restricted to ex-Kentucky members of the denomination. Any former resident and all others, regardless of creed, he declares, will be welcomed in the good old-fashioned Kentucky way.

## The Danger After Grip.

Lies often in a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the glorious tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore to health and good spirits after an attack of Grip. If suffering, try them. Only 50 cents. Sold and perfect satisfaction guaranteed by Paull Drug Co.

Preventive measures in warding off sheep troubles not only eliminate tedious treatment, but sustain in the most natural and desirable condition for breeding purposes.

## Democratic Ticket.

For President

●SCAR W. UNDERWOOD,  
of Alabama.

Announcements

For Congress

We are authorized to announce Jack Chinn a candidate for Congress in the eighth district, subject to the action of the Democratic Primary to be held August, 3rd.

Mr. Roosevelt carried Oregon and Nebraska. He is now touring Alabama.

Oscar W. Underwood, majority leader in Congress, has as a starter for the Presidential nomination the votes of Alabama. Kentucky ought to help swell his list.

Old Mexico will get too large for her pants if she don't look out. She has refused to recognize the right of the American government to instruct it on its duties in its observation of international law.

The Democratic State Convention will be held in the city of Louisville Wednesday, May 29th. Except in counties containing first and second class cities county conventions to select delegates will be held Monday, May 27. In counties containing cities, as above named, precinct meetings will be held May 25.

We have read many horrible stories, stories that caused us to lower our head and shudder, stories that caused the tenderest memories to pass through our bosom, yea, stories that brought such emotions that grief and tears were the only relief, but of all the horrors of horrors we ever read, was the sinking of the Titanic and the drowning of nearly sixteen hundred souls that now lie two miles deep in the bottom of the ocean. Think how heroic the men on that vessel were. Busy getting the women and children in life boats, a little room remaining for a few men; but who are to take places—“We will cast lots,” and in that way a few of the male passengers were saved.

Teddy is still doing his best to place President Taft on the list of undesirables, and in fact his expressed insinuations and charges surpass any thing that has ever been made in a Presidential contest. If the Republican party accepts Mr. Roosevelt as its nominee it goes on record as the most populistic organization that has ever existed in this country, and, as we see it, if it takes Mr. Taft it endorses more Presidential blunders than good judgment can defend. It's predicament reminds us of an incident, but not relating it, when summed up is as follows: It's be d—ed if they do and be d—ed if they don't. The only possible

hope for success next November is to put Teddy in the shades of the past, repudiate the present administration in no unmistakable language, and then nominate a new man on a straight Republican platform, declaring unequivocally for protection for “infant industries.” If the American people could be induced to believe that the Standard Oil Company, the American Tobacco Company and a few kindred concerns need the protection, certainly the party would be as successful as in days gone by when it won on such theories. The Republican party is a party of protection, and it ought to stand in the open for its infants as it has in the past.

## THE TITANIC TRAGEDY.

[From The Courier-Journal.]

Horror, helplessness, awe pity oppress the human mind and heart in the realization of such a world-tragedy as the sinking of Titanic.

That such a structure as this imperial ship, the latest, the supreme, triumphant achievement of man in his boasted mastery of the sea, sailing forth on her first voyage with absolute and apparently justified confidence, freighted with more than two thousand mortals, and with the riches of many lands, should be crushed like an egg shell and, on one of the most traveled roads of the ocean, disappear beneath two miles of water before the marvel of wireless telegraphy could bring her aid, benumbs us anew with our pettiness and feebleness in the grip of the forces of nature, whose puny puppets instead of whose arrogant masters, we are.

All the ages of sea-craft culminated in this superb work of man's brain and hand. The confidence with which her makers and owners committed her to the deep was shared by the hundreds who entrusted their lives to her keeping. Those who knew her best scoffed at the very suggestion that any fury or cunning of the ocean could sink her. Even hours after the ominous reports of her distress and doubtful fate began to reach the shore officials of the White Star Line laughed at the idea of her possible loss. She had not sunk because it was impossible for her to sink!

And yet to-day the civilized world is stricken by the catastrophe of the sinking, with her, of more than a thousand lives. For it is no exaggeration to say that all the civilized world is stricken. Aside from the magnitude of the calamity, its victims are claimed by many countries, and were so great in numbers that there is scarcely a home that is not affected, if not by the loss of a dear one, by the loss of acquaintances, or of those known by repute beyond the circles of home and acquaintance. And all, whether known to us in one way or another, or known to us not at all, were our fellow beings, whose fate might have been, may yet be, our own.

The pathos of it puts aside for the moment, all other considerations—whether the tragedy could have been prevented, whether there was fault, and whose. There will be time for these things when the survivors tell their stories. Let us hope that the light that they will throw upon this frightful disaster will disclose all the truth and thrill our sorrow with a new demonstration of the strength of men, if not to achieve the impossible, to die the death of strong men.

## The Perfect Laxative For Elderly People

Age has its attractions no less than youth in a more serene and quieter life. But it is this very life of rest without sufficient exercise that brings with it those disorders that arise from inactivity. Chief of these are a chronic, persistent constipation. Most elderly people are troubled in this way, with accompanying symptoms of belching, drowsiness after eating, headaches and general lassitude. Frequently there is difficulty of digesting even light food. Much mental trouble ensues, as it is hard to find a suitable remedy. First of all the advice may be given that elderly people should not use salts, cathartic pills or powders, waters or any of the more violent purgatives. What they need, women as well as men, is a mild laxative tonic, one that is pleasant to take and yet acts without griping. The remedy that fills all these requirements, and has in addition tonic properties that strengthen the stomach, liver and bowels, is Dr. Caldwell's Syrup Pepsin, which thousands of elderly people use, to the exclusion of all other remedies. Trustworthy people like A. E. Tigrett, Oaklawn Farm, Newbern, Tenn., and Mrs. Lizzie S. Brooks, Paris, Ky., say they take it at regular intervals and in that way not only maintain general good health, but that they have not in years felt as good as they do now. You will do well to always have a bottle of it in the house. It is good for all the family.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

We fear many good housewives make a serious mistake in giving too much time to Sunday cooking. Others, perhaps, are equally in error by overworking on Saturday, so that they cannot properly rest or enjoy the Lord's day. Parents and children ought to be

more to each other on that day than on any other. A day of uplift and delight it ought to be made in every home.

Don't be surprised if you have an attack of rheumatism this spring. Just rub the affected parts freely with Chamberlain's Liniment and it will soon disappear. Sold by Paull Drug Co.

### Farm Notes.

Drown the rats and mice.

Silage is convenient for feeding.

The silo helps dispose of the hired man problem.

Keep the stables clean, well ventilated, lighted and drained.

A warm, dry nest is the best place you can provide for the brood sow.

Milk fever is invariably confined to the improved and high producing cows.

The silage that is left in the silo will come handy before the summer is over.

Do not permit your chicks to go into the cold, wet grass in the early mornings.

By judicious planting a fine supply of onions may be secured throughout the season.

Rub off the water spouts of a tree as soon as they appear. You can do it with your fingers.

A \$10 rooster is generally cheaper than a \$2 one. The good blood will tell the second year.

Pigs that are apt to have "differences of opinion" should be separated. Fighting takes off flesh.

Oyster shell is absolutely the best shell-making food for the hens. Keep it before them constantly.

Don't plant any flowers in straight rows except hollyhocks or sunflowers, or plants for borders.

### More About the School Law.

#### Editor News:

Having read from time to time all of the letters in the "News" from various readers, commenting on the common schools of Ky., and the much needed improved compulsory school attendance law, I thought I would give my opinion on the subject, although it may not meet the approval of any; but I think it better, however, than any expressed by any of the other writers.

I have been a teacher in the common schools of Russell Co., Kentucky for the last four years. I believe I have had reasonably good success, and have been a close observer as to the needs of the pupils.

I believe the time fast approaching when we will have a much extended compulsory school law as suggested by some of the writers; and trust that the time is near that we can welcome such a law. The enactment of such a law now would be immature, unless preceded by laws providing for certain other reforms.

Some of our school houses are not comfortable either in summer or winter, being poorly lighted, heated, ventilated and not enough seating capacity. Our public roads (which the children have to travel) are usually in bad condition. For a short time their attendance is prevented by high water, there being few bridges; and back of all of this are the many indigent children who will have to be looked after more closely. Until laws that will eliminate all these obstacles are passed and enforced, the proposed compulsory school attendance law will be a failure (as the present one has been).

I think for any one to contend for a compulsory school law for

## LOCUST - GROVE - STOCK - FARM

### RAVEN BIRD

Stock that will make the Season of 1912 at my Barn.

### RAVEN BIRD

Sired by Red Bird 1956, he by Cabell's Joe Brown 1955, he by Cabell's Lexington 3234, by Gist's Black Hawk.

1st dam Authilia Thompson, by Thompson's Lexington, he by Cabell's Lexington 2234 By Gist's Black Hawk. 2nd dam by Caldwell's Denmark, he by King Denmark. 3rd dam Bonie, by Old Nat Brown 81.

Raven Bird is a beautiful mahogany bay full 16 hands high, 6 years old, he has the best of eyes feet and legs, a beautiful head and neck, a very heavy well set tail, which he at all times carries to perfection. He possesses extreme speed, style and action, and the most perfect disposition of any stallion I have ever seen or handled. He has fine distinct gaits, and goes them all in a most attractive manner. You will note from his breeding that he has for his sire the famous old Red Bird, who has perhaps sired as many show, and sale horses as any stallion in Kentucky, and traces on his dam's side to Cabell's Lexington, conceded by all horsemen to be one of the greatest sires that ever lived. Raven Bird is one of Red Bird's greatest sons, and has proven himself an excellent breeder, and we have every reason to believe that, if he is given an opportunity he will make a reputation equal to that of his worthy sire. Service fee \$10.00 to insure a living colt.

### Alexander's Artist 4517 A. S. H. R.

Sired by Fayette Artist 4516 he by Kentucky Artist 1455, he by Artist Montrose 51, he by Artist 75 by King William 67.

1st dam Louise Cabell 5900 by Red Squirrel 53. 2nd dam Juellie C. 1304 by Jewel Denmark 70, by Washington Denmark 64. 3rd dam by Dew Drop, by Cabell's Lexington. Alexander's Artist is a beautiful red chestnut, five years old, 15½ hands high. You will note from the above that there are few if any better Stallions in Kentucky. He is a grand individual and in every way as good as his breeding. He is thoroughly broken to double and single harness, and nicely gaited, in fact he is a combined horse of high class, and presents a magnificent appearance anywhere you place him. His future as a show horse and as a producer of saddle horses, will compare most favorably with the best. Fee, \$10.00 to insure a living colt.

### Marion

Marion is a black Jack with white points, 6 years old, 15 hands high, extra good length, heavy bone and foot, good head and ears. He has lots of substance, in fact he has all of the desirable features of a first-class Jack. He has proven himself very sure and a most excellent breeder. Service fee \$10.00 to insure a living colt.

The above described stock will do service at my barn in Columbia.

I am prepared to take care of mares sent to me from a distance. Mares pastured at \$2.00 per month, or fed at \$8.00. In all cases money is due and must be paid, when mares are bred to other stock, traded, parted with or removed from neighborhood. All stock will receive my personal attention, and due care will be taken to prevent accidents and escapes, but will not be responsible should any occur.

A. S. CHEWNING, - - - Columbia, Kentucky.

### the rural districts of Kentucky

would be imposing a great injustice upon the children of the rural and mountain district. We understand that Germany and other countries with their compulsory laws are successful, but we also note that the educational advantages are better there than in Kentucky. Germany being a very old and wealthy country, it is not supposed that Kentucky (which is just a little over a century old) can cope with her in education.

I believe Kentucky has a pretty reasonable and fair-minded set of teachers, willing to perform their duty and fulfill their promises. I believe the best thing we can do now is to make our work interesting and secure both the immediate and mediate interests of the pupils. I also stand for better schoolhouse, and better salaries, etc., for the compulsory school law also, when we are ready to receive it.

### Potato Salad.

Cut cold boiled potatoes into cubes or slice them moderately thick. Chop a little onion and mingle with the potatoes. A nice boiled salad dressing is prepared by heating a half cup of vinegar with an even tablespoonful of sugar and a pat of butter. Mix thoroughly half teaspoonful of salt, half teaspoonful of pepper, a pinch of mustard (ground) a teaspoonful of corn starch and the yolk of an egg. Beat the hot liquor gradually into this and simmer until thick. Stir in a little cold water. Whip the white of the egg in a stiff froth, and when the mixture has cooled, with an egg-whip beat into it the white. Incorporate thoroughly with the potato and minced onion. Trim with slices of hard-boiled egg and parsley.

A daily record should be kept of each cow in the stable. In a year's time a dairyman will know by practical demonstration what cows are paying him and that those are not.

## Be Happy!

Happy the girl, or woman, who has never suffered from any of the diseases of womanhood! Or, if she has been a sufferer, happy is she if she has learned of the wonderful benefits of Cardui, the woman's tonic!

Cardui is a gentle, tonic remedy, for women's ailments. It is a natural medicine—safe, harmless, purely vegetable. It has been in successful use for more than 50 years. It has cured thousands. It should do the same for you.

## TAKE CARDUI The Woman's Tonic

Mrs. Mary Neely, of Denver, Tenn., says, "I think there is no tonic on earth, as good as Cardui. I used it with the very best results. I had backache and nearly everything a woman could suffer with, until I took Cardui. Now, I feel better than I have for two years. I shall always recommend Cardui to other suffering women. I can't praise it too highly. As a medicine for weak, tired, worn-out women, Cardui is safe and reliable. Try it, today."

### "Those Who Go Down To The Sea In Ships."

The lure of the sea has fascinated men through all history. Increasing population, depletion of home resources, the love of adventure and the quest for wealth in strange lands have led man through all time to traverse not alone the mountains and valleys, but also to thread the devious passage of the sea.

In the dawn of history, nothing daunted by the terrors of the elements, the destroying winds and mountainous waves, he ventured upon the sea in the most fragile of boats and with the crudest methods of propulsion. It was only a little over 400 years ago, after much evolution in vessel building and the adoption of the sail, that there were those who were hardly enough to attempt a voyage into the unknown which resulted in the first transatlantic crossing since that day the science of ship building has advanced by strides and bounds, and the seas of the globe are threaded by countless vessels bearing merchandise and tourists between all points and through all seas.

The disaster to the Titanic is appalling. Perhaps at no time in the history of maritime affairs has there been such a catastrophe. Is there any lesson in the disaster? Were 1,800 souls sacrificed because of modern demands for speed and quick transit across the Atlantic? Was it due to the size of the great vessel which, according to reports, had trouble in leaving her berth in Europe? Is an express service across the Atlantic a necessity? Surely human life is worth more than the loss of 24 hours time, or even a week's time. Just who was to blame for the disaster is not yet known, but certainly the nations should take steps to prevent its recurrence.—Cin., Enquirer.

### Almost a Miracle.

One of the most startling changes ever seen in any man, according to W. B. Holsclaw, Clarendon, Tex., was effected years ago in his brother. "He had such a dreadful cough," he writes, "that all our family thought he was going into consumption, but he began to use Dr. King's New Discovery, and was completely cured by ten bottles. Now he is sound and well and weighs 218 pounds. For many years our family has used this wonderful remedy for Coughs and Colds." It's quick, safe, reliable and guaranteed. Price 50 cents and \$1.00. Trial bottle free at Paul Drug Co.

I wanted to say to my old colored friend to wit: Uncle John Grady, of Columbia, that if this cold weather continues for a few weeks like we have had for the past few days that there will be two more added to the list to wit: Charles Sparks, of our city, and J. F. Pendleton, of this community. Something like twelve months ago Uncle John called on your reporter and made inquiry if he didn't have a very valuable bone yard on his premises that he kept for his own convenience. He at once informed his old friend that it had been a number of years since he had any use for a yard of that description, but referred him to Dr. L. C. Nell and Mr. J. A. Diddle, of our city, who could supply him bountifully. Uncle John also stated at the time that he was working for some fertilizer Co., out of Louisville and had a good price on the raw material for fertilizer.

### JORDAN PEACOCK.

Jordan Peacock, No. 1148 will make the present season at McKinney, Lincoln Co. I have placed him in the hands of Mr. Dick Scudder for this season.

### NOBLE PEACOCK.

This fine young Stallion will make the season at my barn in Gradyville, Ky., at the low price of \$15.00 to insure a living colt. Noble Peacock, is of Jordan Peacock, first dam by Artist Jewel, 2 dam by Cronwell Denmark 73, 3rd, dam by Artist 75. This is one of the best bred Stallion in Kentucky and is a first-class Saddle horse, has been shown several times and always in the money. If you want to raise a good colt and one that will bring a good price bred to Noble.

### TWO FINE JACKS.

My two fine Jacks will serve mares for \$10.00 for a mare mule and \$8.00 for a horse mule, to insure a mare mith foal.

They are two of the best Jacks that was ever in Adair county. Last year was the first season for Black Diamond and the second season for Highway. Their colts sold last fall from \$70.00 to \$125.00. Average \$91.83.

Parties that sold some of these mules: Henry Parson 1 for \$100.00; P. N. Blades 2 for \$250.00; Luther England 1 for \$85.00; Albert Brummett 1 for \$85.00; Robert O. Keltner 1 for \$80.00; C. M. Hindman 1 for \$77.50; Huston Bradshaw 1 for \$75.00, and Squire Kemp 1 for \$80.00.

These are just a few that brought these prices. I measured 46 of Highways colts last fall that was from 3 feet 5 in. to 3 feet 9 in. at 7 days old, they averaged 3 feet 6 in. Now if you want mules that bring the most money you can get them at my stable, My Jacks have the size. Money due if mares or traded and leave the neighborhood.

Respectfully,  
W. L. GRADY.
